About me

I am an award winning Creative Director and a 360 degree designer with over 20 years of professional experience. My area of expertise lies within the world of brand and live communication. I have worked with a wide range of large International clients such as Adidas, Chanel, Coca-Cola, LandRover, Lexus, L'Oréal, Montblanc, Stella Artois to name but a few.

My work focused on supporting their strategies and blurring the boundaries between brand, retail, digital and live communication. I'm interested in learning from other cultures and creative forms and take time to indulge in art, comics, photography, architecture and CGI. I believe there is always room for improvement and strive to continuously do better by keeping up to date with all current tool releases and new processes relevant to my industry and beyond.
